

HAMPTON & FRIENDS

Activities for Adventurers of All Ages

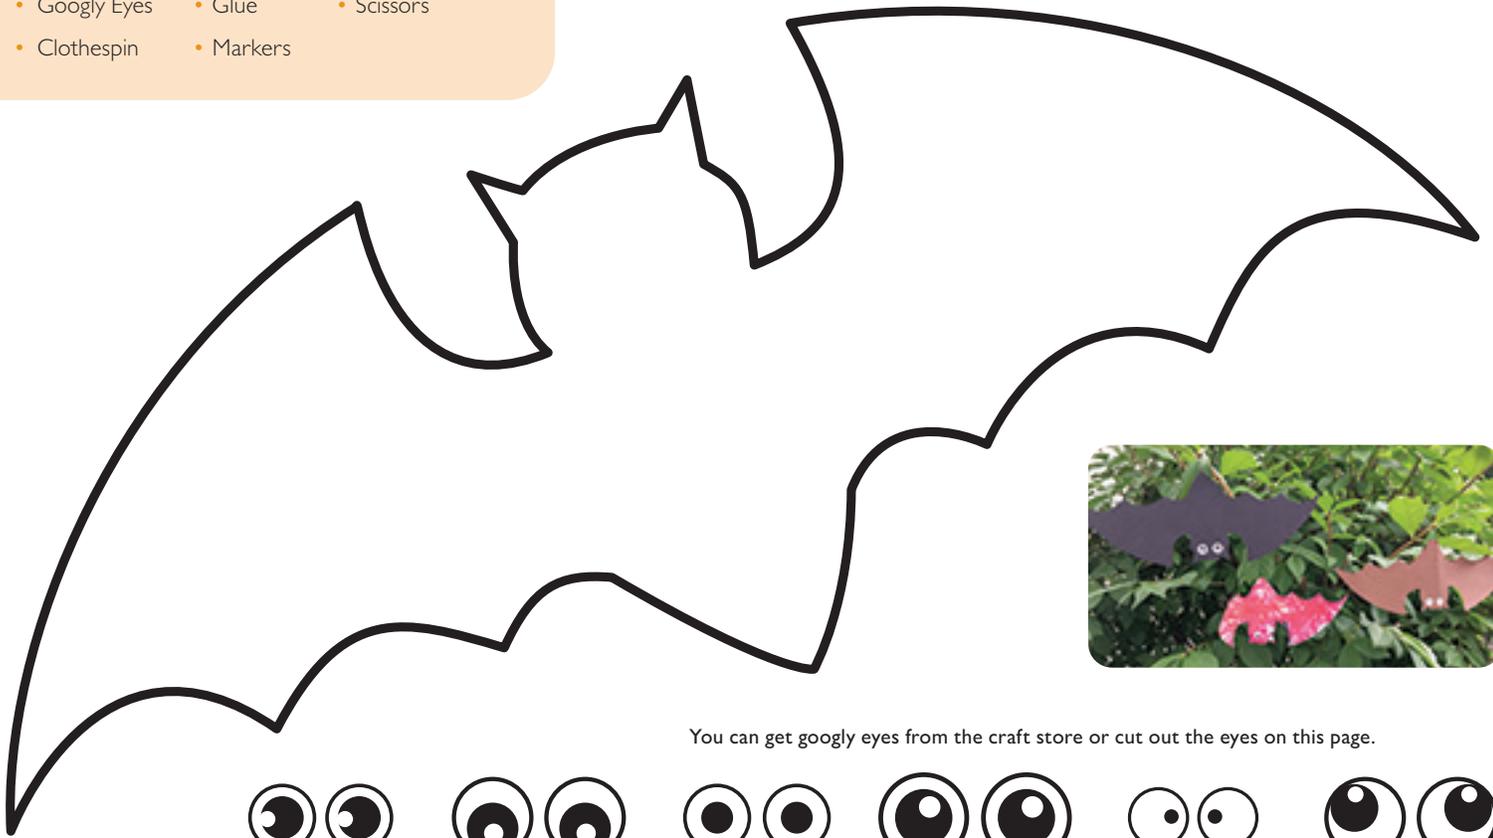

CREATE A BAT

1 Gather your materials:

- Use the bat outline pictured or construction paper
- Googly Eyes
- Glue
- Scissors
- Clothespin
- Markers

Bats are mammals that can fly and eat insects. Make your own bat friend and go to <https://www.summitmetroparks.org/mammals-in-the-metro-parks.aspx> to learn where you can see real bats.

You can get googly eyes from the craft store or cut out the eyes on this page.

2 Color your clothespin or leave it plain.

3 Color in your bat outline with the markers or cut it out of colored paper using this shape as a template.

4 Glue it to your clothespin so when you clip it on or hang it, the bat will be upside down.

5 Glue the googly eyes onto your bat.

6 Hang your bat and enjoy!
